

Das and Diener Research Prize Winners

J.P. Das and Erwin Diener have been named this year's recipients of the University's highest research award. The prizes will be awarded at a public gathering in the Students' Union Theatre on 18 March. Following presentation of the awards, each recipient will deliver a lecture about his research activities.

Dr. J.P. Das was nominated for his work in the field of cognitive disabilities—he is the "inventor" of the Das Cognitive Assessment System, a major intellectual assessment battery now produced by a commercial publisher. Das is a member of the Department of Educational Psychology and is Director of the Development Disabilities Centre.

Dr. Erwin Diener's contributions to the field of immunology have been impressive. His early work on antigen recognition remains fundamental in his discipline. More recent work has been related to specific immunotoxins with a potential to provide a new approach to immunosuppression. Diener is Chairman of the Department of Immunology in the Faculty of Medicine.

Articles on both Das and Diener will appear in these pages closer to the time of the Research Prize awards in March. □

Quote

"It has always been a toss-up whether Polanyi or Ray Lemieux in Alberta would be the first to get a Nobel."

Board of Governors Honors Employees

One thousand six hundred and fifty years of service at this University was the aggregate accomplishment of the staff honored at last Tuesday's event in the Papaschase Room of the Faculty Club. The event—an annual fête of people with 25, 30, 35, and occasionally 40 years—is hosted by the Board's Educational Affairs Committee, this year under the chairmanship of Bill Milnethorp. Lasting about an hour and preceded by a wine and cheese reception, the ceremony is highlighted by capsule biographies of each staff member and the presentation of mementos. Twenty-five year employees receive bronze plaques, those who have been here 30 years a crested pen set, and those who have worked here 35 years receive a mounted bronze medallion. The biographies often include anecdotal information. This year, for example, attendees heard of one person who "was so determined to get a job at the University that he sat in the supervisor's office until he was hired."

Junior High Health Series Authored by Diane Kieren is a First

When "health" became a mandatory subject on the junior high curriculum in Alberta last fall, teachers in the province were able to reach immediately for the ideal texts: three books specially written by Diane Kieren (Family Studies) and custom-designed for Alberta grades 7 to 9. These (along with a series written by Kieren's former student, Judith Campbell (Educational Administration)), are the first Canadian junior high health series to appear.

Commissioned by the publisher to write the three books, Dr. Kieren put the first drafts into junior high classrooms for pilot testing. When feedback came in from students and teachers, she rewrote them, tailoring them to her audience. "It was a unique process," she says, "and now they fit the Alberta curriculum very well." They've had approval from the Department of Education, and are on the Department's list of recommended texts, along with the teacher's resource manual for the series, written by Maryanne Doherty (Home Economics).

The books, *Discovering Yourself* (grade 7), *Being Yourself* (grade 8), and *Knowing Yourself* (grade 9), each open with an introductory chapter on health. The themes developed in subsequent chapters are self awareness and acceptance, relating to others, life careers, and body knowledge and body care. The same four themes run through all the books, being taken a stage

further with each succeeding age group. "Relating to others", seen in grade 7 from the point of view of "Understanding Relationships", is developed into "Building Relationships" and then into "Working Relationships" over the next two books.

Sex and sexuality are not discussed in any of the books, and Dr. Kieren says she wasn't able to

include diagrams of the human reproductive system anywhere in the series, because of various school board requirements and restrictions that prevent their inclusion in a regular text. She is, however, writing separate student booklets on "understanding sex and sexuality", for use where authorities and parents have given their special permissions. □

Whalley to Give First Hanson Memorial Lecture

The inaugural Eric J. Hanson Memorial Lecture will be presented by John Whalley, University of Western Ontario, on Tuesday, 10 February. The topic of Professor Whalley's presentation will be "Tax Reform in Canada: Issues and Options."

Dr. Whalley was research coordinator for the influential International Trade Studies prepared for the Macdonald Royal Commission, and is well-known for his many contributions to Canadian

public finance, especially in the area of tax incidence studies. He is one of Canada's most distinguished economists.

"The subject of tax reform is very topical in Canada. It is also a most fitting subject for the Eric J. Hanson Memorial Lecture," says Brian Scarfe, Chairman of Economics.

During his many years of service to the University of Alberta, including a term as Head of the Department of Political Economy

from 1957 to 1964, Dr. Hanson's interests were always involved with the economics of the public sector. Tax reform is today one of the most fundamental issues in applied public sector economics.

The lecture will commence at 3 p.m. in 504 Stollery Executive Centre, Business Building. It will be followed immediately by a reception (R.S.V.P., please). Further details are available from the Department of Economics (432-3406). □

'Trading Partners' Seen as One Cure for Job Burnout

For the next six months, Don Paradis is Derek Cox and Derek Cox is Don Paradis—from nine to five, at least.

They are the first two administrative/professional officers (APOs) on campus to take part in a program aimed at "rejuvenating" APOs and reducing job burnout. In this particular switch, Mr. Paradis traded his post as APO in Food Science for Mr. Cox's job in the Comptroller's office. The two men had previously known each other only slightly, over the phone.

"Derek and I responded to the APO program independently," says Mr. Paradis. Negotiations between them and their respective supervisors, however, meant that latterly the two men were meeting on a daily basis.

"It's just like starting any new job," says Mr. Cox, interviewed on the third week of the six-month switch. "It's a bit intimidating. Where are the bits and pieces of information you need? And then, there's the question of being accepted by new colleagues."

A different environment, new responsibilities and new challenges were what drew Mr. Paradis to

'Fancy Meeting You Here'

Derek Cox (left) and Don Paradis exchange pleasantries in front of the Administration Building, Mr. Paradis' new, albeit temporary work place.

apply. He holds an MSc in Food Science and has been a University administrator for a decade.

Mr. Cox would have celebrated 12 years in the Comptroller's c in mid-February. "It was just about the right time for a change," he says. Policies and procedures for APO job trading have now been finalized, says Eva Cherniavsky, who coordinates the list of "trading partners" for the program. That information is now being circulated among the University's 250 APOs. □

Rick Hansen Scheduled to Reach Campus in Early March

On 21 March 1985, Rick Hansen set himself in motion to raise money for spinal cord research and wheelchair athletics. His cabled arms have propelled his wheelchair through some 34 countries and the odometer will top the 40,000 km mark when his odyssey ends sometime in March.

Acclaim has been a constant that Edmontonians plan to magnify during Mr. Hansen's three-day stopover in the city. On campus, a planning committee (chairman: Art Burgess) has been meeting weekly to organize fund-raising projects and public awareness events in support of Mr. Hansen's Man in Motion Campaign. (The earliest possible date that he could arrive in the city would be 2 March, says Leona Holland, Coordinator of the Man in Motion Alberta Tour.)

The Young Executives Club is

organizing the main event—a noon-hour rally at the Universiade Pavilion with Mr. Hansen arriving at about 12:20 p.m. A meet the media session in the Pavilion's fourth floor lounge and a tour of the University Hospitals will complete the "south side" segment of his visit to Edmonton. (Rallies at Northlands Coliseum and West Edmonton Mall are also on his schedule.)

Room W-15 Van Vliet Centre is serving as "Hansen Headquarters" each weekday from 8 a.m. to 5 p.m. The phone number is 432-ROLL.

The fund-raising began in earnest a few days ago with such events as a women's intramural Rick Hansen Fun Spiel, the Old Time Skating Party and Faceoff '87. A number of Campus Recreation events will be converted into official Man in Motion activities.

The Students' Union has challenged its counterpart at the University of Calgary to a fund-raising contest and "Dunk for Dollars" is featured at Bears' basketball games. (Franklin's Restaurant donates \$50 each time a Bears field goal is recorded via the dunk.)

Disabled Students Services is organizing "Wheeling With Rick Hansen." Students and staff will be invited to find a sponsor and spend the afternoon of 25 February in a wheelchair. Volunteers are needed; the place to go to sign up is 241 Athabasca Hall.

Rick Hansen has, in Premier Getty's words, "overcome numerous challenges with his physical and mental courage, and undimmed realism."

Heroes still exist; one of them is on his way here. □

Currents

Chair Selection Committees, Faculty of Science

The Faculty of Science announces that Chair Selection Committees are being established to select new Chairs for the Departments of Botany and Mathematics. These committees are prepared to receive nominations and comments from members of the University community; these should be addressed to Dr. R.D. Bercov, Acting Dean of Science.

Call for Papers

The American Association on Mental Deficiency will hold its Annual Region IV Conference in Edmonton (Westin Hotel), 16 to 18 September 1987. The conference theme is "Working Towards Self-Sufficiency" and keynote speakers include: Dennis Mithaug, Jack Stark, Bert Bruyninks and James Ellis. Paper poster submissions will be accepted to 4 May 1987.

Thomas A. Ebert, President of Western Industrial Research and Training Centre, and Assistant Clinical Professor in Occupational Therapy, is Chairman of the 1987 AAMD Region IV Executive Committee. Steven Dennis, Vice-President Research at WIRTC (13325 St. Albert Trail, Edmonton T5L 4R3, telephone 454-9656), is serving as the contact person.

Treat Yourself to Confections by Mozart and Salieri

Two one-act comic operas, "The Impresario" by Mozart and "First the Music" by Salieri, will be performed in Convocation Hall on 6 and 7 February, marking an occasion that's historic as well as musical: exactly two hundred and one years earlier, on 7 February 1786, the two operas had their first performances before the emperor Joseph II and his court in Vienna.

Performers this time are third- and fourth-year music students under the direction of Alan Ord, with musical direction by Alfred Strombergs, (both of Music) and piano accompaniment by Sylvia Taylor (a former Music student).

These are full productions, with period costumes by Betty Kolodziej, and special sets designed by Morris Ertman and constructed by students at W.P. Wagner High School.

"They are good operas for 'first timers,'" says director Ord. "They're comedies in the tradition of *opera buffa* or *commedia dell'arte*. The music is light, and the plots revolve around prima donnas and their little ins and outs about who is the most important. And both operas will be sung in English."

This is intoxicating stuff to lighten the dark days leading up to Reading Week.

Performance time is 8 p.m. both nights. Admission is \$5 for adults, \$3 for students and seniors. Tickets from the Music Department or at

the door. (In spite of construction, Convocation Hall can still be reached through the main centre door of the Arts Building.) □

Remembering

The Library Trust Fund was inaugurated by Myer and Barbara Horowitz as an imaginative way of recognizing special occasions and at the same time contributing to a worthwhile cause.

A donation to the Library Trust Fund helps purchase the kind of books (often fine printing from private presses) that support the Library's major collections but that are difficult to fund from regular sources.

Anyone who would like to commemorate or celebrate an occasion—an achievement of their own or someone else's, a retirement, a birth, a death—may make a donation to the Fund. That special occasion is then marked through purchase of a book, which is identified with a bookplate inscribed as the donor wishes. Where possible, the Library also informs the person being honored.

The Library benefits doubly from donations to the Fund, since they are matched by the Alberta government. □

Emil Skarin Fund

Invitation to apply

Applications are invited to the Emil Skarin Fund Committee of the University Senate for financial support of a 1987 project or projects. Approximately \$5,000 from the Fund will be available.

Projects must be of value both to the public as well as the University of Alberta; be consistent with the general aims and purposes of this University, but not normally funded by it; and originate within the Province of Alberta.

Preference will be given to projects with an emphasis on the humanities and the arts. Proposals should include objectives, schedule, budget, and procedures for organization and evaluation.

Application forms are available on request, and should be returned, completed, by 2 March 1987.

ECAT Looks at 'Education for the 21st Century'

The location was the Citadel Theatre but there were no histrionics as the Edmonton Council of Advanced Technology (ECAT) considered "Education for the 21st Century."

Panelists Isaac Glick, Bev MacKeen, Gerry Moss and Garry Popowich avoided the sweeping statement and the bold prediction and displayed thought processes befitting their stations: Director of Human Resources, General Systems Research Inc. (Glick), Director of Alberta Career Development and Employment's Labour Market Industry Analysis Branch (MacKeen), Associate Dean, External Relations, Faculty of Science (Moss), and Associate Director, Senior High Curriculum Branch, Alberta Education (Popowich).

With the information explosion showing no signs of abating, the panelists emphasized society's need to train people to assimilate large chunks of knowledge and to hone their ability to assess that knowledge.

When asked to assess the current education system, Popowich said, "We're not in crisis like the United States is." Standards are being raised however. Alberta has joined the other provinces in moving the mark to get credit for a particular subject from 40 to 50 percent. More math and science content in the classroom is a near certainty.

When it was mentioned that some high school graduates are graduates in name only, Dr. Moss wondered whether students were giving it their best effort or if it was "all smoke and mirrors." He warned administrators not to go

too far worrying about "having 642 computers in the school" but rather to concentrate on maintaining a full complement of fully qualified and caring instructors. Today's "flash and bang show" is worrisome to Dr. Moss.

From his readings, Dr. Glick suggested that the day is not too far removed when corporations will offer degrees, and Dr. MacKeen pointed out that in 1984, 30 of Canada's largest companies spent \$1 billion on in-house training and education.

There was agreement on a member of the audience's call for more emphasis on language courses in order to operate more effectively in the international community.

Another member of ECAT called the education system an overpaid manufacturing system and said if he were Minister of Advanced Education he would fire all the administrators and replace them with managerial personnel. Dr. Moss reminded the Council that universities are dealing with people, not elbow joints. Today's students have to absorb a tremendous amount of knowledge that "frankly, I'm glad I don't have to deal with," he said.

The key to education in the next century is to teach people *how* to learn not *what* to learn, Dr. Moss emphasized. An attitude that's open to exploration and discovery was seen as being essential. In that light, Mr. Popowich advised members that he might be knocking on some of their doors and requesting suggestions as to how the education system could be improved.

ECAT was founded three years

ago. Its 180 members hail from private technology companies, research interests, post-secondary institutions and enterprises serving the advanced technology sector. Previous speakers at ECAT meetings include J. Fraser Mustard,

President, Canadian Institute for Advanced Research; Michael B Vice-President, LSI Logic Corporation; Norman Arrison, President, Alberta Laser Institute; and Bjorn Anderson, Director, IBM Canada Laboratory. □

University of Alberta The Senate

Nominations for Public Members

We invite nominations from members of the public and/or associations to fill several vacancies on the University Senate.

Volunteer members serve on Task Forces and committees dealing with educational issues. Senate, which is a bridge between the University and the community, meets formally four times a year, for a full day session.

There are no formal qualification requirements but consideration will be given to community service of nominees from central and northern Alberta. Members serve for a three-year term beginning July 1, and applications are invited from people of all walks of life.

The deadline for receipt of nominations in the Senate office is March 2, 1987.

Nomination forms requiring the signature of the nominee and two nominators are available from:

**The Senate
University of Alberta
150 Athabasca Hall
Edmonton, Alberta T6G 2E8 Tel: 432-2268**

"It is the duty of a senate to inquire into any matter that might tend to enhance the usefulness of the university."

The Universities Act 1976

Cutting (Rehab) Med Tape

President Horowitz, in the company of (left to right) Chancellor Tevie Miller, Dean Martha Piper, Helen Madill, Professor of Occupational Therapy, and John Schlosser, Chairman, Board of Governors, opens the Rehabilitation Medicine Lecture Theatre and Trailer Complex. The facilities sprang up as a result of a brace of large conditional grants by Alberta Advanced Education. The funds addressed the expansion of the Occupational Therapy and Physical Therapy programs and the province's manpower needs in these areas. The official opening took place on 12 January.

Lou Hyndman Scholarship Created

A cheque for about \$70,000 has been given to the University by the trustees of the Lou Hyndman Campaign Trust Fund. The money is intended for the establishment of the Lou Hyndman Edmonton Glenora Scholarship. The provincial government will match the contribution 2:1, making the fund's total approximately \$210,000.

The money became available as a result of small surpluses left over after each election between 1967 and 1982. These surpluses were invested by the trustees of the Campaign Fund according to the provisions of *The Election Finances and Contributions Disclosure Act*. When Mr. Hyndman announced his retirement from provincial politics, the trustees decided to publicly and permanently recognize his commitment and service to Alberta. During his political tenure, Mr. Hyndman headed three portfolios and advised two premiers.

The trustees—David Currie, Ross Harris and John Hill—attended a University luncheon honoring Mr. Hyndman. In thanking the trustees after Mr. Hyndman, President

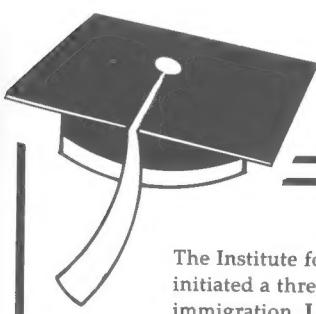

Horowitz mentioned that a special feature of the scholarship is that it is applicable at another university in Canada or overseas.

Two awards will be presented annually and students in law, history, political science, education, business or economics will be eligible. The recipients will receive \$4,000 for each of the last two years

of their degree program. The scholarship will be awarded on the basis of high academic standing and demonstrated community service. Renewal of the award for the second year is contingent upon satisfactory academic standing during the first year of the award. □

A trio of Students' Union Presidents, Lou Hyndman (1958-59), David Oginski (1986-87), and Tim Christian (1970-71), (left to right) compares notes during the 23 January luncheon at University House.

Activities

The Institute for Research on Public Policy has initiated a three-year program of studies related to immigration. L.A. Kosiński (Geography) was invited to join the newly created IRPP Advisory Committee on Immigration Issues . . . Brian Champion (Humanities and Social Sciences Library) has published "Canadian-American Relations" in volume 9 of *Encyclopedia USA* . . . Computing Science's Lee White has been selected as Chairman of the PGS I-II Subcommittee of the NSERC Postgraduate Scholarship Selection Committee . . . At the winter meeting of ASHRAE (American Society of Heating, Refrigerating, and Air-Conditioning Engineers, Inc.) in New York City, Larry Kostiuk accepted the Joseph S. Cuba Memorial Award for 1987. The award is given "in recognition of graduate student work for significant research accomplishment in the area of renewable energy sources or energy conservation applied to the fields of heating, refrigeration, air-conditioning or ventilation."

University Management Course Has Openings

Each June, a week-long University Management Course, sponsored by the Canadian Association of University Business Officers, is held at the Banff Centre. It consists of lectures, group discussions, case studies, and small group exercises.

The course has been designed for administrators with direct responsibilities for recommending and implementing policies either within units or on a university-wide basis. The University of Alberta will sponsor three registrations in 1987, contingent upon availability of funding.

The course is intended to develop an awareness and understanding of University Management, Labour Relations, Financial Planning and Budgeting and Management of Change/Stress. A variety of teaching methods will be used. The schedule is rigorous and participants should expect to work evenings.

Applicants must be Administrative/Professional Officers and applications must be supported by the direct supervisor and the Department Head (in support departments), the Faculty Dean (in teaching departments and Faculties), or another senior administrator.

Department Heads may also submit nominations but should have the nominee(s) complete the application form.

To apply or nominate, request an application form from the Secretary, Advisory Committee on Professional Development for APOs, 3-13 University Hall.

The deadline for applications is 25 February.

For further information, call B.H. McDonald, Chairman of the Advisory Committee on Professional Development for APOs (432-4955), or Eva Cherniavsky, Committee Secretary (432-4588). □

active role in counselling students, and to supervise counselling trainees and interns.

A joint appointment with another department may be considered.

Further information may be obtained by contacting the Office of the Dean of Student Services (432-2968).

Applications should be sent no later than 27 February 1987 to: Dr. P.J. Miller, Dean of Student Services, 300 Athabasca Hall.

Applications should be accompanied by a detailed résumé of qualifications and experience, and the names of three references.

The appointment will take effect 1 July 1987.

Positions

The University of Alberta is committed to the principle of equal opportunity in employment and encourages applications from all qualified people.

In accordance with Canadian Immigration requirements, these advertisements are directed to Canadian citizens and permanent residents.

Academic

Financial Analyst

A Financial Analyst is required for the Budget/Planning Office. This individual will work closely with departmental officers in reviewing and preparing budgets and will assist in general financial planning.

Qualified applicants will have a university degree with additional training in systems and accounting, and working experience in a large organization.

This position will appeal to candidates who have interpersonal and communication skills, coupled with problem-solving abilities.

Starting salary in the \$30,000 range. The University provides a comprehensive fringe benefits package.

Applications should include a résumé and three references, and be addressed to: R.N. Spilsted, Budget/Planning Office, 1-15 University Hall, University of Alberta, Edmonton, Alberta T6G 2J9.

Lecturer, Special Sessions 1987-88, Department of Educational Psychology, Hearing Impaired Program

The Department of Educational Psychology will be making a senior appointment for a Special Sessions course (5 to 19 August 1987; Educational Psychology 597 Lecture 56—Advanced Workshop on Education of Hearing Impaired Students). Salary for the position would be up to the maximum of \$2,676. The course will be held in Saskatoon and will be offered as an interactive seminar with senior professionals. It will have a particular focus on education of hearing impaired students in Europe and the Commonwealth, and on literary and language development.

Apply by 31 March 1987 to: Dr. Harvey W. Zingle, Chairman, Department of Educational Psychology, 6-102 Education North, University of Alberta, Edmonton, Alberta T6G 2G5.

Director, Student Counselling Services

Applications are invited for the position of Director of Student Counselling Services. In addition to being responsible for all budgetary and administrative aspects of the operation of Student Counselling Services, the Director will be expected to provide leadership to a staff of experienced, professional counsellors, to maintain an

active role in counselling students, and to supervise counselling trainees and interns.

A joint appointment with another department may be considered.

Further information may be obtained by contacting the Office of the Dean of Student Services (432-2968).

Applications should be sent no later than 27 February 1987 to: Dr. P.J. Miller, Dean of Student Services, 300 Athabasca Hall.

Applications should be accompanied by a detailed résumé of qualifications and experience, and the names of three references.

The appointment will take effect 1 July 1987.

Support Staff

To obtain further information on the following positions, please contact Personnel Services and Staff Relations, 2-40 Assiniboia Hall, telephone 432-5201. Due to publication lead time and the fact that positions are filled on an on-going basis, these vacancies cannot be guaranteed beyond 23 January 1987. For a more up-to-date listing, please consult the weekly Employment Opportunities Bulletin and/or the postings in PSSR.
